DEPARTMENT of AGRICULTURE
STATE OF MISSOURI
JEFFERSON CITY

BOB HOLDEN
GOVERNOR

*Serving, promoting and protecting the agricultural producers, processors
and consumers of Missouri's food, fuel and fiber products.*

PETER HOPHERR
DIRECTOR

July 31, 2003

Dear Friend of Missouri Agriculture:

It is my pleasure to present the ninth edition of the Missouri Livestock Market Directory.

Livestock production and marketing are the foundation of Missouri agriculture. In 2001 Missouri agricultural production contributed \$4.82 billion to Missouri's economy, making agricultural production one of the largest industries in the state. Livestock production and marketing contributed more than half of that revenue. Our livestock inventory of 4.35 million cattle, 3.0 million hogs, 70,000 sheep, 23,000 goats and 200,000 horses provides Missouri with a year-round supply of animals for market.

Missouri producers realize that marketing is just as vital as production to the success of their operations. Our state is fortunate to have a number of quality livestock markets, as well as dedicated marketing personnel, to help producers throughout the state receive maximum return on their production. Our livestock industry, with its focus on innovative genetics, health, nutrition, and marketing programs, is a driving force in agriculture for our state and our nation.

I invite you to take advantage of Missouri markets for your livestock buying and selling needs. Thank you for supporting Missouri agriculture.

Sincerely,

Peter W. Hopherr
Director

Over the years the Missouri Department of Agriculture's Market News Program has strived to give Missouri's livestock industry the most accurate and timely market information possible.

To help keep the Missouri public fully informed of current market information, the Market News Program uses several means of reporting such as radio broadcasts, newspapers, market news hotline, and web site.

Each week all of the livestock markets reported in the state are carried in the Weekly Market Summary along with major midwestern markets, livestock and grain futures, livestock slaughter figures, Missouri direct feeder pigs, and Missouri cash grain prices. The Weekly Market Summary is now available free on line at:

<http://www.mda.mo.gov/Market/pdf/weeklysummary.pdf>

If you would like to receive a hard copy by mail, the annual subscription fee for the Weekly Market Summary is \$18.

For further information about the Missouri Department of Agriculture's Market News Program or subscribing to the Weekly Market Summary, contact the following:
